

JAMILA HALLAL

IT Support Technician | Software Engineer

jamela.hallal45@gmail.com | +961 70 743 060 | Beirut, Lebanon

Nationality: Australian & Lebanese

[GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Detail-oriented IT graduate with a strong foundation in networking, systems troubleshooting, and database administration, backed by Cisco CCNA coursework and hands-on lab experience configuring routers, switches, and VLANs. Combines full-stack development skills (React, Node.js/Express, MySQL) with a customer-focused, problem-solving mindset, and a growing focus on applying AI to real-world technical challenges. Eager to bring technical support, software engineering, and IT infrastructure expertise to an enterprise environment.

EXPERIENCE

Software Engineering & Voice AI — SleekSync

Sep 2026 – Present

- Developed and tested features for Voice AI and e-commerce applications using modern software development practices.
- Built and integrated React-based UI components and application functionality.

Software Engineering Intern — TechTalks

Aug 2026 – Present

- Collaborated in a team to develop SkillProof, a platform designed to validate and showcase users' technical skills through structured projects and proof-based assessments.
- Contributed to full-stack web development, including database design, frontend/backend implementation, GitHub-based collaboration, feature development, and testing.

Full Stack Website Development Intern — Lebanese International University

Feb 2026 – Jun 2026

- Built a fully functional web application using modern front-end and back-end technologies, from design through deployment.
- Designed responsive user interfaces and developed RESTful APIs for end-to-end web solutions.
- Managed application databases, gaining practical experience in data modeling and query design.

AI & Machine Learning Intern — Elevvo Pathways

Feb 2026 – Mar 2026

- Designed and built a real-world machine learning project covering data preprocessing, model development, evaluation, and deployment.
- Strengthened problem-solving and analytical skills through applied AI development.

PROJECTS

LebanonGen — Senior Graduation Project — lebanon-gen.vercel.app/

Full-stack platform for genetic disease awareness and risk assessment, using machine learning to predict the probability of inherited genetic disorders from user-provided data. Built with React, Node.js/Express, MySQL, and Groq's Llama 3.3 API; deployed on Vercel and Render. Features personalized risk assessments, interactive data visualization, regional statistics, role-based authentication, and an AI-powered chatbot for user education.

Medicine Reminder — Mobile Application

Mobile application tailored for Alzheimer's patients, functioning as a medication reminder. Sends scheduled notifications prompting patients to take their medicine, with an alarm that can be turned off directly by the patient once the dose has been taken.

Lost and Found Center — University Web Platform

Web platform enabling university students to report lost or found items. Students who find an item can publish it on the site, while students who lose an item can post a description along with the last known location, helping connect lost items back to their owners.

VOLUNTEER EXPERIENCE

Database & IT Volunteer — Fekra Project (NGO Foundation)2024 – 2026

- Managed and maintained records for approximately 300 students in Excel/spreadsheets, ensuring data accuracy, consistency, and confidentiality across multiple cohorts.
- Organized and standardized record-keeping processes, improving data retrieval speed and reducing duplicate or incorrect entries.
- Provided basic technical support to staff, helping troubleshoot data entry errors and spreadsheet issues.
- Coordinated with NGO staff to align database structure with organizational reporting needs.

EDUCATION

Bachelor's Degree in Information Technology — Lebanese International UniversityGraduated with Distinction, 3.76 GPA

Baccalaureate Degree — Al Makassed HighschoolGraduated with Honors

SKILLS

Web Development - JavaScript, React, Node.js/Express - REST API design & integration - MySQL, PostgreSQL	Network Administration - Windows Server, Active Directory, Domains & Group Policy - TCP/IP, VLANs, OSPF, DHCP, ACLs, NAT - Cisco routers/switches
Programming - Java (OOP, JDBC) - C	Personal Skills - Collaborative team player with strong interpersonal skills - Quick learner who adapts rapidly to new tools - Strong analytical and problem-solving abilities - Highly organized with excellent time management

CERTIFICATIONS

CCNA: Enterprise Networking, Security, and Automation — Cisco Networking Academy

CCNA: Switching, Routing, and Wireless Essentials — Cisco Networking Academy

CCNA: Introduction to Networks — Cisco Networking Academy

Network Security — Cisco Networking Academy

LANGUAGES

English — Fluent | Arabic — Native
